

DETAILED ACTION

1. This action is responsive to the amendment filed Claims 1-3, 5-17, and 19-24 represent Computer system and method for transmitting user status information.

Reason For Allowance

2. Claims 1-3, 5-17 and 19-24 hereafter referred to as 1-22 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closet prior art of record (WO 99/55055 by Kupka) does not teach nor suggest in detail requesting the current status of a program and data that stored on a recording medium of a user computer in combination with all the elements of each independent claim as argued by the Applicant (See Page 32 of Applicant enabling specification). Kupka merely teaches a method of protecting downloaded data. In Kupka, requesting the status of a program and transmitting the status to the server is not taught. So as indicated by the above statements, Applicant's arguments have been considered persuasive in light of the claim limitations as well as the enabling portions of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
